Advanced Epoxy Resin Lining & Waterproofing Specialists

Based in Nottingham at the heart of the UK, SA Pool Systems Limited delivers specialist epoxy lining and waterproofing solutions across the UK and Europe. Our experienced, fully trained team provides efficient, high-quality, and competitively priced services, built on extensive expertise in water barrier technology.

We provide seamless epoxy resin membrane lining for:

- Swimming Pools
- Flumes
- Spas & Steam Rooms
- Changing Rooms
- Chemical Bund Tanks

Our advanced epoxy system offers:

- ✓ 100% Waterproof Protection
- ✓ Exceptional Chemical Resistance
- ✓ Seamless, Joint-Free Finish
- ✓ Durable, Low-Maintenance Surface

Designed to perform in demanding environments, our continuous membrane system ensures long-term reliability and protection.

Anti-Slip Flooring Solutions:

Our Aqua-Bead Anti-Slip Flooring System enhances safety in wet and high-traffic areas. Ideal for pool surrounds and walkways, it combines durability with improved slip resistance to create safer environments.

Complete Project Delivery:

We offer a fully managed service including:

- Initial Site Survey
- Technical Consultation
- Professional Installation
- Project Completion
- Dedicated After-Care Programme

Our commitment doesn't end at installation — we ensure your system continues to perform for years to come.

Accredited & Committed to Safety - Proud members of:

- CHAS
- Constructionline
- SafeContractor

Demonstrating our commitment to the highest standards of health, safety, and professional compliance.

ANTI-SLIP FLOORING

Durable. Safe. Stylish.

Slip-Resistant Flooring for Wet Environments

SA Pool Systems' Aqua-Bead Flooring System is a highly durable, slip-resistant surface designed specifically for wet and high-traffic areas.

Ideal for:

- Pool Walkways
- Steps
- Pool Surrounds
- Shower Areas
- Changing Rooms

It delivers a safe, modern, and visually appealing finish while providing exceptional long-term performance.

Advanced Epoxy Technology:

The Aqua-Bead system consists of coloured quartz beads suspended within a two-pack epoxy resin. This combination creates a strong, seamless surface that enhances grip, stability, and durability — even in demanding environments.

Key Benefits:

- ✓ Above-average slip resistance (independently tested & certified)
- ✓ Excellent chemical resistance to prevent staining
- ✓ 100% waterproof
- ✓ Suitable for surfaces of any size
- ✓ Seamless, continuous finish
- ✓ Hygienic surface that does not harbour bacterial growth
- ✓ Very low maintenance
- ✓ Wide choice of colours — solid or blended combinations
- ✓ Modern, attractive appearance
- ✓ Covered by our comprehensive guarantee*

Built to Perform. Designed to Last.

The Aqua-Bead Flooring System enhances both safety and aesthetics, making it the ideal choice for commercial and leisure facilities requiring reliable anti-slip protection.

*See our warranty terms and conditions for full details.

ANTI-SLIP FLOORING

Safe. Durable. Hygienic.

Protect Your Customers & Your Business

Pool areas, changing rooms, and wet environments are particularly vulnerable to slips and falls. Our anti-slip flooring is designed to keep both commercial and residential spaces safe, including:

- Swimming Pools
- Spa Areas
- Wet Rooms
- Changing Areas

Ideal for leisure centres, schools, and high-traffic commercial environments, our flooring not only reduces accident risk but helps protect your business from potential legal claims.

Safe Flooring for Changing Areas & Wet Rooms:

Changing rooms and wet areas are naturally exposed to water, creating slip hazards. Choosing a flooring solution that offers consistent slip resistance, even when wet, is essential.

Our system provides:

- Safe and hygienic surfaces
- Easy-to-clean finish
- Aesthetic appeal suitable for modern facilities

Durable Epoxy Resin System:

The flooring comprises coloured quartz beads suspended in a two-pack epoxy resin, providing a tough, hard-wearing surface that handles heavy foot traffic while remaining comfortable to walk on.

Benefits include:

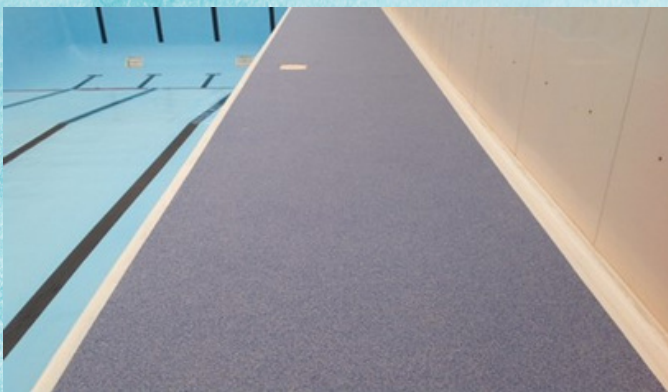

- ✓ Reliable slip resistance in wet conditions
- ✓ Hygienic, bacteria-resistant surface
- ✓ Seamless, continuous finish
- ✓ Long-lasting durability
- ✓ Suitable for commercial and residential spaces

Expert Installation & Support

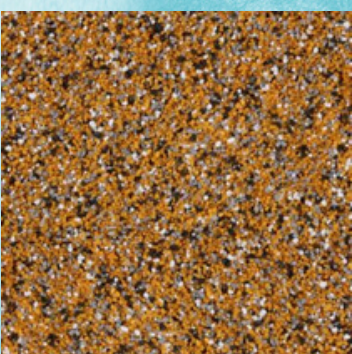

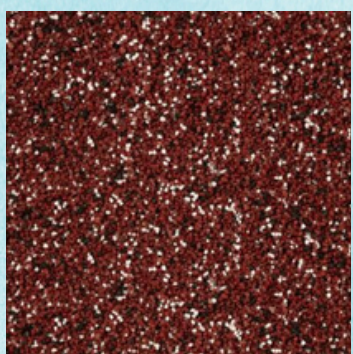

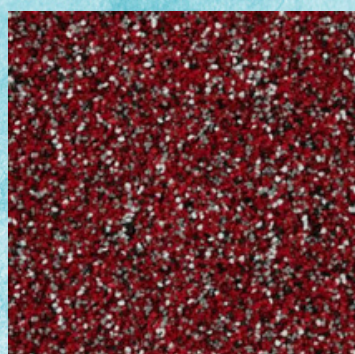

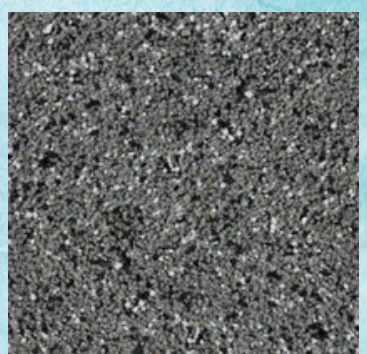

At SA Pool Systems, we are specialists in anti-slip flooring installation, ensuring your facility is both safe and visually appealing.

ANTI -SLIP FLOORING

ANTI-SLIP FLOORING COLOUR COMBINATIONS:

EPOXY RESIN LINING

Durable. Hygienic. Cost-Effective.

A Smart Solution for Pool Tank Problems

Traditional tiled swimming pools, both indoors and outdoors, often face maintenance challenges over time:

- Cracked or broken tiles
- Worn grout joints
- Blistering of non-epoxy liners
- Leaks and water damage
- Surfaces prone to bacterial growth

Grout can discolour and become a breeding ground for bacteria, leaving your pool unattractive and potentially unsafe.

Our epoxy resin lining system eliminates these issues, providing a seamless, hygienic, and long-lasting solution.

Key Benefits:

- ✓ Cost-effective solution
- ✓ Fast and efficient installation
- ✓ Can be applied to any prepared surface
- ✓ High resistance to heat, abrasion, and chemicals
- ✓ Reinforces laminate to withstand thermal shock
- ✓ Hygienic – does not harbour bacteria
- ✓ Permanent seal to prevent future leaks
- ✓ Seamless, joint-free continuous membrane
- ✓ Colourfast finish – no fading over time
- ✓ Very low maintenance
- ✓ Modern, attractive appearance
- ✓ Customisable – incorporate designs or artwork
- ✓ Covered by our comprehensive guarantee*

Built to Last, Designed to Impress

Our epoxy resin lining system transforms pools into safe, durable, and visually stunning environments, while saving time, cost, and future maintenance headaches.

*See our warranty terms and conditions for full details.

EPOXY RESIN LINING

Restore. Renovate. Revive.

Expert Pool Refurbishment Services

Whether you want to repair, relining, or redesign your swimming pool, SA Pool Systems provides industry-leading refurbishment services across Nottingham and the UK.

Our expertise includes:

- Pool Repairs & Renovations
- Inspections & Liner Replacements
- Leak Detection Services
- Full Project Consultation & Support

Swimming pool relining ensures the safety of your customers while preventing costly issues that could force temporary closures.

Signs Your Pool Liner Needs Attention

Fading:

Sun exposure or age can cause colour fading, making your liner more fragile and prone to punctures or breaks.

Wrinkling:

Wrinkled liners are often a sign of poor water chemistry maintenance. This not only looks unattractive but may indicate brittleness, increasing the risk of tears.

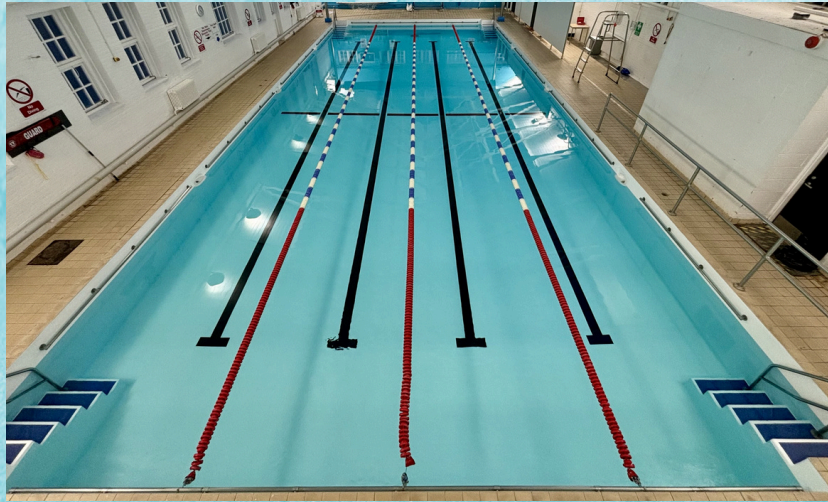

Leaking:

Some water loss is normal, but significant leaks may indicate a punctured liner requiring repair or replacement.

By acting early with pool refurbishment or relining, you avoid bigger, costlier problems and maintain a safe, attractive swimming environment for your customers.

Our professional team ensures every repair or renovation is completed efficiently, with long-lasting results and minimal disruption.

EPOXY RESIN LINING

FLUME EPOXY LINING

Smooth. Safe. Durable.

Enhance Your Water Rides

Flumes and chutes can often be uncomfortable due to uneven joints and exposed surfaces. Using the same proven method as our epoxy resin lining system in swimming pools, we create a continuous, smooth surface that improves ride comfort and safety.

Our high-performance resin flume refurbishment system delivers:

- ✓ A continuous membrane for a smoother, more enjoyable ride
- ✓ Reinforced joints for added structural integrity
- ✓ Elimination of slide mats
- ✓ Reduced risk of rider injury
- ✓ A hygienic surface that will not support bacterial growth
- ✓ Long-term waterproof protection

Available in a wide range of colours — with optional artwork or branding — our system not only enhances performance but refreshes the overall appearance of your waterslide.

Regular flume maintenance and resurfacing is essential for:

- Extending equipment lifespan
- Maintaining safety compliance
- Reducing operational downtime
- Improving customer experience
- Protecting your investment

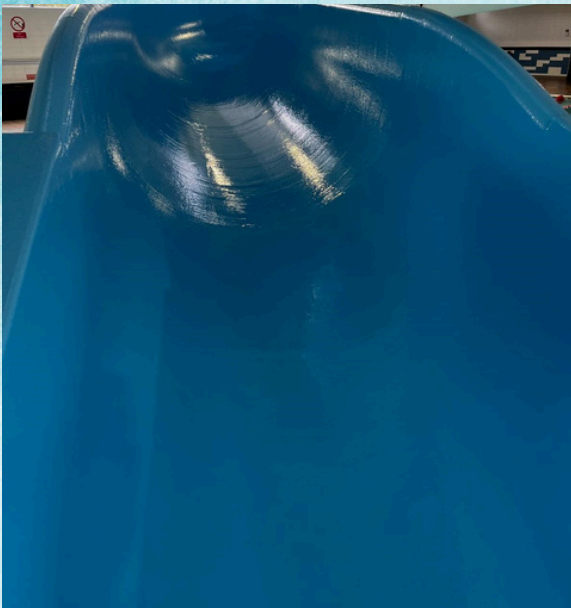

In commercial leisure centres, holiday parks, hotels and waterparks, proactive refurbishment ensures your attractions continue to perform at their best.

Key Benefits of epoxy resin lining system for Flumes:

- ✓ Minimises risk of injury
- ✓ Continuous membrane for a smoother ride
- ✓ Hygienic – will not support bacterial growth
- ✓ Available in a wide range of colours
- ✓ Custom artwork or logos can be incorporated
- ✓ Eliminates the need for slide mats
- ✓ Covered by our comprehensive guarantee*

*See our warranty terms and conditions for full details.

FLUME EPOXY LINING

AFTERCARE AND MAINTENANCE

Protect Your Pool. Extend Its Life.

SA Pool Systems Limited offers a professional aftercare and maintenance service designed to prolong warranties on all work we carry out and extend the life of your facility.

Our services are fully tailored to your needs, ensuring minimal disruption while keeping your pool safe, clean, and fully operational.

We specialise in swimming pool maintenance across all types of facilities:

- One-off Repairs
- Scheduled Maintenance Visits
